

Chrome – Allow Flash and Popups

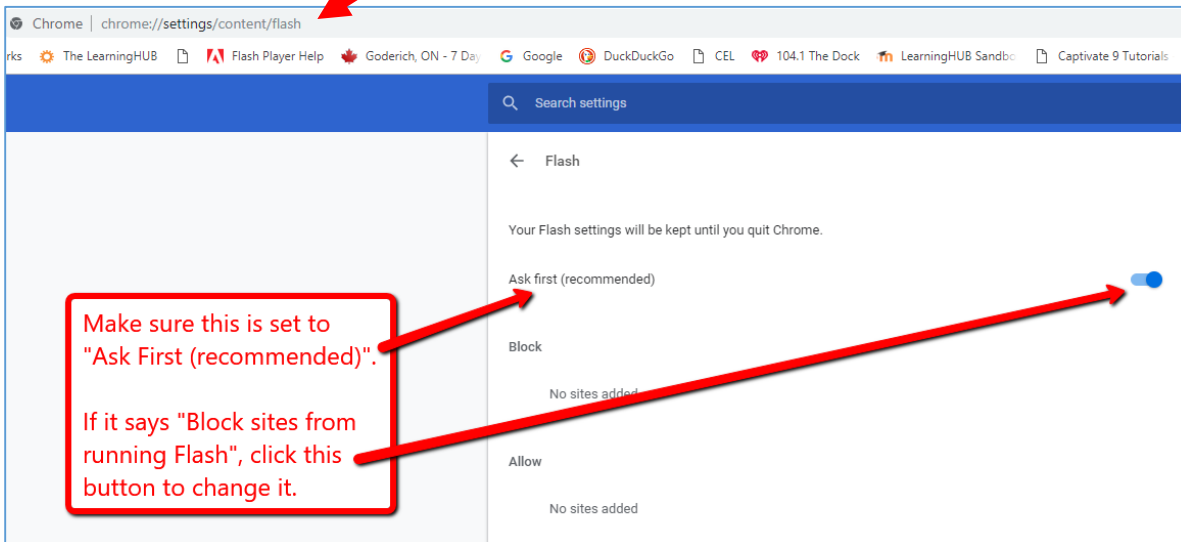

Changes below will need to be made each time you open Chrome.

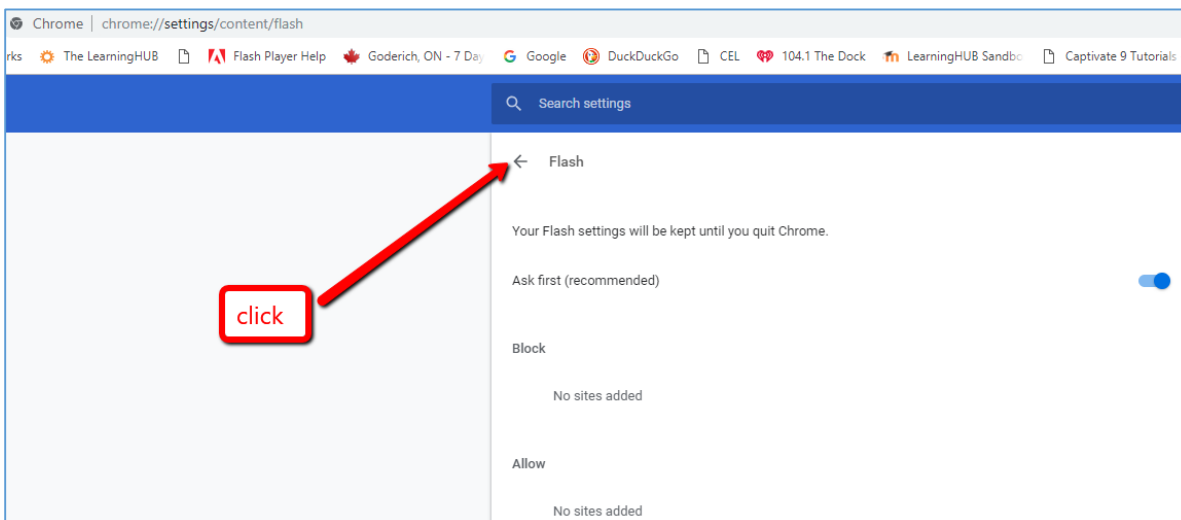

1. Open Chrome

2. In address bar, type: <chrome://settings/content/flash>

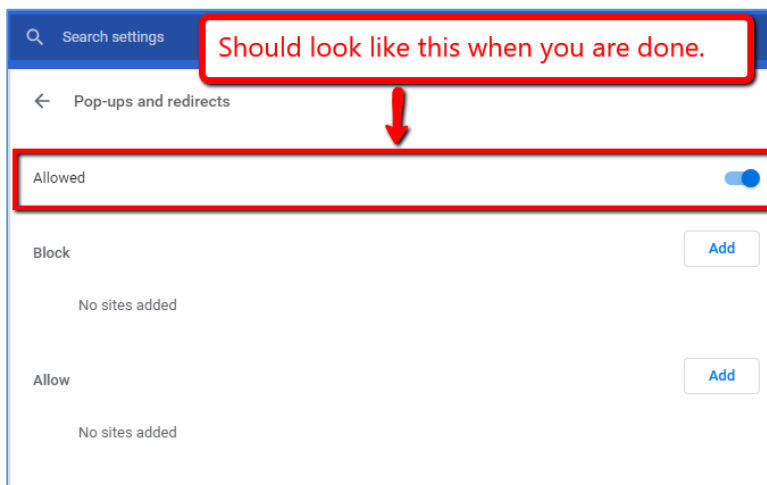

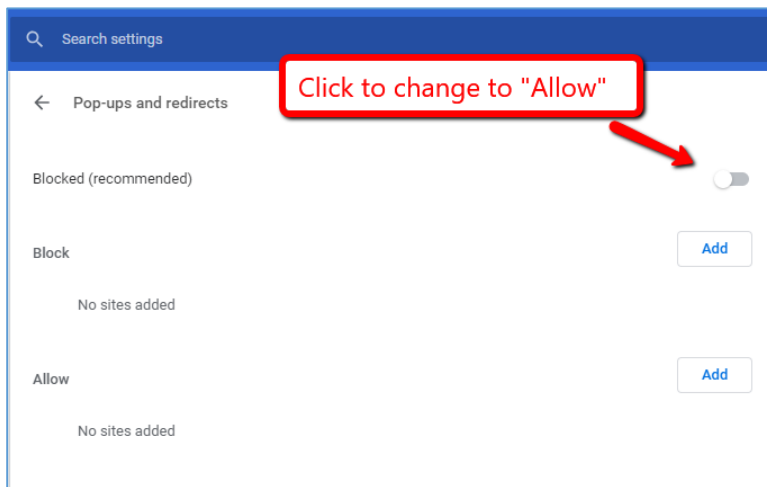

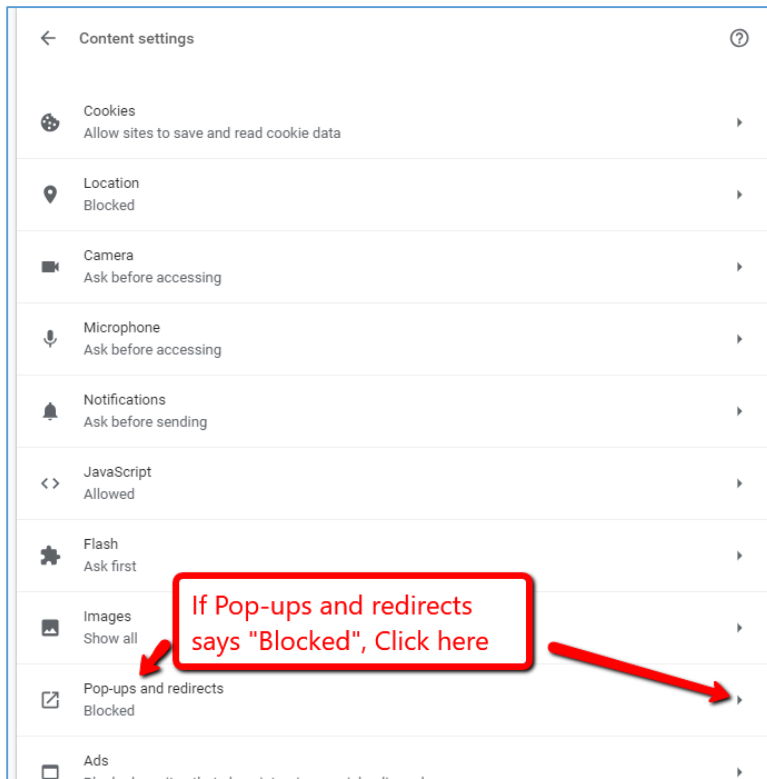

Please note: this must be typed in top address bar not google search bar

3. Click the back arrow beside "Flash" to go back to the Content Settings page

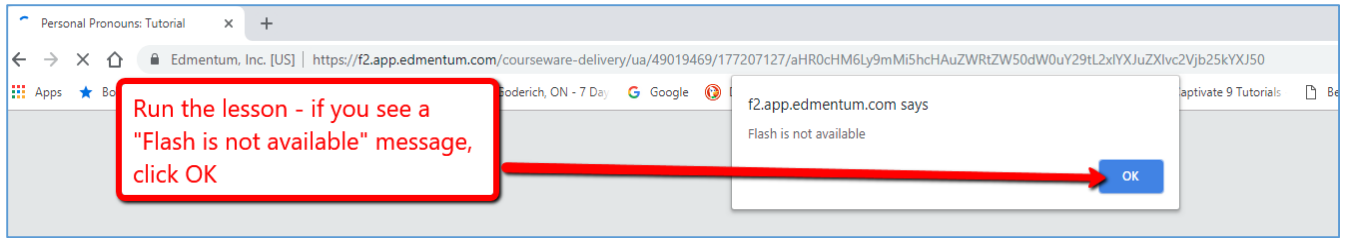

4. Pop-ups must be set to "Allowed"

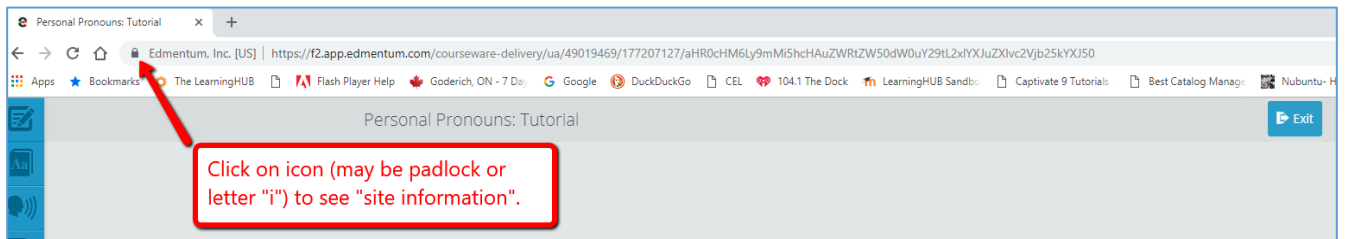

5. Close Chrome

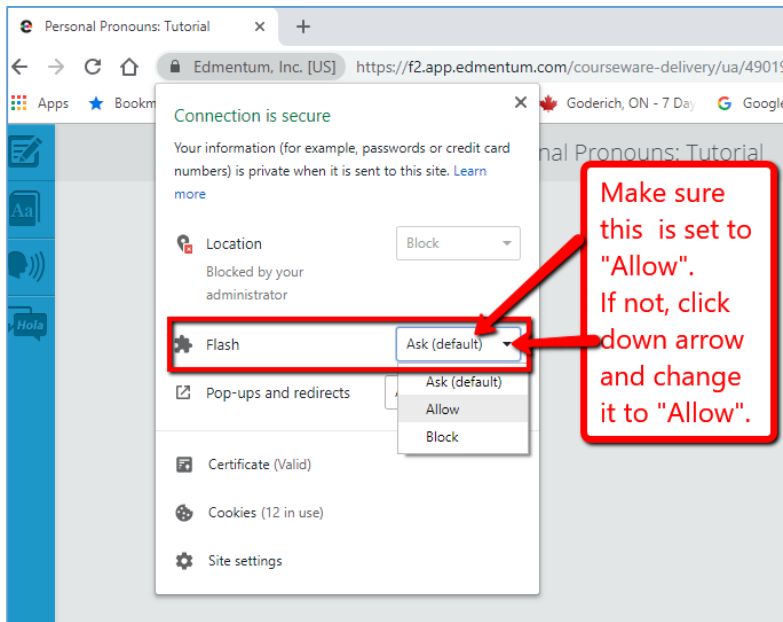

6. Reopen Chrome and try your lesson. It will give you a Flash error if the lesson requires Flash. This is OK. (You must be on your lesson's website for the following steps)

7. View Site Information

8. Set this website to Allow Flash

9. Reload the webpage
