IMPORTANT NOTES FOR CLASSROOM PRACTITIONERS!

- The LearningHUB staff endeavour to make the online learning experience as rewarding as possible for both the learner and the classroom practitioner. This requires direct communication between the learner and the HUB practitioner.
- The inability to deal face-to-face with learners presents many challenges. It is extremely important that the learner can communicate via email with his/her HUB practitioner.
- Please ensure your learners have email communication skills before they are registered with the LearningHUB. They should be encouraged to answer any LearningHUB emails in a timely manner.
- If there are questions or comments, please have the learner be specific. This will allow the HUB practitioner to assist the learner without the time-consuming process of emailing back and forth to narrow down the request/problem.
